

# Evan Tu

## Student (High School Junior)

I am a Fullstack Web Developer who is proficient in HTML, CSS, Javascript (React.js + Redux), Golang, and MySQL. As a software developer intern and coding tutor, I am dedicated to improving my skills through hands-on learning and developing meaningful projects, as well as helping others achieve their coding aspirations. My most impactful project I have created yet is a tennis team management platform (<https://www.opentennis.pro>) for my high school, which they are currently using for its communication services and roster-tracking features.

### Work History

2022-06 -  
Current

#### Software Developer Intern

Hack+, Fremont, United States

- Currently developing the Dash2 project, an internal management platform, using Typescript and Firebase
- Assisted in testing client-side web components
- Utilized Slack and Google Meet as a communication tool to work with other interns and developers
- Gained a substantial amount of knowledge with Typescript, GraphQL, and Firebase
- Collaborated effectively with members of Dash2 development team
- Worked with fellow interns to identify and remove bugs

2022-02 -  
Current

#### Coding Tutor

Volunteer, Pleasanton, United States

- Conducted tutorial services for a student to provide support in web development languages such as HTML, CSS, and Javascript
- Created a calculator web application, Spotify-clone web application, and finance-based web application for the student to learn off of and further his web development skills
- Tutored the student on a weekly basis for about one and a half hours
- Maintained energy and enthusiasm within the learning environment, while also communicating effectively with the student

### Education

2020-08 -  
Current

#### High School Diploma

Amador Valley High School - Pleasanton, CA

- Co-President of the Amador Valley Web Development Club
- Vice President of the Amador Valley Hack Club
- Secretary of the Amador Valley Artificial Intelligence Club
- Completed the development of a quiz-taking web application ([breakingbonds.surge.sh](https://breakingbonds.surge.sh)) for the Amador Valley Chemistry Club, on behalf of the Web Development Club
